

AFGE Local 3403 Endorses Trisha Calvarese for Congress

The American Federation of Government Employees Local 3403 is proud to endorse Trisha Calvarese for Congress in Colorado's Fourth District.

AFGE Local 3403 is a small but mighty Union representing employees across eight federal agencies, including the National Science Foundation. As a union dedicated to protecting federal employees and advancing this nation's leadership in science, we value leaders who share our commitment to scientific integrity and discovery.

Calvarese has been a consistent champion for technology and innovation, advocating for areas left behind by the economy. Her campaign inspires our members and honors our mission to protect federal employees while upholding the vital role of objective truth in science. We strongly endorse Calvarese in this election. She will help restore our nation's scientific integrity, putting us back at the front of global scientific leadership.
