Why is this man smiling? Privatization is a Bad Deal

What happens if your job is privatized?

- **YOU** may receive lower pay.
- **YOU** will become an at-will employee who may be fired without appeal rights.
- **YOU** will no longer be represented by a union.
- **YOU** will lose your federal pension if you worked for the federal government less than 5 years.
- **YOU** may lose your future retirement benefits.
- **YOU** will no longer be eligible for your FEHB plan and your health care costs will increase.
- **YOU** are not guaranteed the same job if you transfer to a TSA airport.
