

JOIN US! HELP MAKE THE VA A BETTER PLACE TO WORK

While VA leadership in Washington, DC was denying there were shortages of Personal Protective Equipment (PPE), our union, AFGE, was on the streets and in the media demanding VA employees get the PPE we need on the front lines.

As a result of our action, we're starting to see important improvements that will benefit **EVERYONE**. The victories our union wins will help our veterans, employees, and families be safer and healthier.

We're asking you to join together with your coworkers today. Help us ramp up the pressure to win on important priorities for front-line workers. Together, we can make our VA a better, safer place for our veterans and employees.

Join now and get a special rebate on your membership dues. **New AFGE members will get \$50, and the recruiter will receive whatever the local pays.**
