

AFGE

SAVE THE VA HEALTH CARE AND BENEFITS SYSTEM EMPLOYEES SHOULD BE TREATED WITH DIGNITY, FAIRNESS AND RESPECT

We are proud employees of the VA. We work round the clock every day of the year to provide high quality care and a unique form of service tailored specifically to our most deserving patients, America's veterans. To serve our nation's veterans in a manner they deserve, what is needed is proper staffing as there are 50,000 vacancies. We stand united to defend the healthcare needs of America's veterans and oppose all efforts at privatization. We also believe that our working conditions are critical to the quality of care and service we provide. The contract we have had for decades is being shredded. We deserve a contract that ensures that we, as caregivers, are treated with dignity, fairness and respect as well as a working environment that is healthy and safe for the employees and the veterans.
